

**LEAGUE OF WOMEN VOTERS®
OF PALM BEACH COUNTY**

Save The Date:

Climate Change Involves 4 Different Issues: The Policy Implications

Presentation by renowned climate expert and internationally acclaimed speaker

John Englander

At the invitation of the League of Women Voters of Palm Beach County, Englander will present:

Environmental Change: Do Science and Policy Collide

Issues of climate change, energy, sea level rise, recycling, the Everglades, fresh water, ecosystem, algae, and many more, may all appear to be similar. During his 40-minute talk, Englander explains where these issues overlap and where they are quite different in terms of the science and policy. The presentation will be followed by an audience Q&A session.

WHEN: Thursday, Sept. 22, 2016

TIME: 5:30 - 7:30 p.m.

WHERE: Summit Library, 3650 Summit Blvd, West Palm Beach

John Englander is a leading expert on sea level rise, oceanographer, speaker, author and consultant. His engaging, customized presentations allow audiences to easily "connect the dots" between the latest science and the impacts of rising sea levels and climate change on businesses, communities and society. His broad marine science background

coupled with expeditions under the polar ice cap and deep dives in research submarines allow him to see the big picture on climate change while entertaining, educating and inspiring audiences. Learn more about [John Englander](#).
