Baher Youth Programs:

By using sports as a platform and a sport-club format, these programs offer a positive learning experience in a fun, healthy way. They provide opportunities for “vulnerable” children to:

- Develop athletic, social, personal, and life-coping skills that increase the likelihood of a successful school experience
- Learn the value of teamwork, respect for rules, sportsmanship, determination, commitment and leadership

The Baher Foundation provides and supports opportunities for children to develop to their fullest potential.

It carries out that mission by providing:

- Direct services to “vulnerable” children and their families
- Administrative support and consultative services to small groups and organizations with similar goals
- Organizational development services to groups interested in developing new organizations and/or improving services to underserved communities
- Workshops planning services (personal and professional development programs) to groups and organizations

Making a difference by volunteering.
