West Technical Education Center

CDL CLASS A - 320 Hours

Train to operate tractor-trailers and transport goods safely. Learn pre- and post-trip inspections, vehicle handling, and delivery procedures to launch a career as a professional truck driver. Must be 18 or older.

ELECTRONIC SYSTEMS TECHNICIAN - 900 Hours

Learn to install, maintain, and repair electronic systems. Gain hands-on experience with wiring, circuits, and troubleshooting to start a career in electronics technology.

HOME HEALTH AIDE (HHA) - 165 Hours

Learn infection control, first aid, CPR, vital signs, and client care. Gain hands-on experience to start a career in healthcare or begin your nursing pathway.

MEDICAL ASSISTING - 1300 HOURS

Prepare for clinical and administrative tasks in healthcare. Learn patient care, vital signs, lab procedures, and office management to enter the medical field.

PHLEBOTOMY - 165 HOURS

Learn safe blood collection techniques, lab protocols, and patient interaction skills. Gain practical experience to start a career in medical labs or healthcare.

WELDING TECHNOLOGY - 1050 HOURS

Master welding techniques, safety practices, and metal fabrication skills. Gain hands-on experience to begin a career in manufacturing, construction, or in industrial trades.
