

JULY 23rd IS RESCAN DAY

Do you watch TV using an antenna?

If so, on this day **you will need to rescan** your television. Afterwards, you will still access WXEL on channel 42. If you watch television through a cable or satellite service, **you do not need to rescan**. Your service provider will do it for you.

RESCANNING INSTRUCTIONS:

To Rescan simply select "scan" or "autotune" from your TV or converter box menu. Instructions are often found by pressing the "set-up" or "menu" buttons on your remote control.
