

2021 ACA Special Enrollment Extended until August 15th! Please pass along and share with your clients, residents, patients, etc.

2021 Special Enrollment Period *Extended to August 15th!*

President Biden announced that the Centers for Medicare & Medicaid Services (CMS) is extending access to the Special Enrollment Period (SEP) until August 15 – giving consumers additional time to take advantage of new savings through the American Rescue Plan. New and current enrollees will have an additional three months to enroll or re-evaluate their coverage needs with increased tax credits available to reduce premiums. Consumers are advised to visit [HealthCare.gov](https://www.healthcare.gov) and sign up for a plan before August 15, 2021.

Starting today, April 1, additional savings will be available for consumers to lower costs. These savings will decrease premiums for many, on average, by \$50 per person per month and \$85 per policy per month. On average, one out of four enrollees on [HeathCare.gov](https://www.healthcare.gov) will be able to upgrade to a higher plan category that offers better out of pocket costs at the same or lower premium compared to what they're paying today.

Beginning in early July on [HealthCare.gov](https://www.healthcare.gov), consumers who have received or have been determined eligible to receive unemployment compensation for any week during 2021 may be able to get another increase in savings when enrolling in new Marketplace coverage or updating their existing Marketplace application and enrollment. These savings starting in early July for eligible consumers are in addition to the increased savings available to consumers on [HealthCare.gov](https://www.healthcare.gov) starting April 1.
