Founder  
Emanuel Jackson Sr. Project

**Wednesday, March 17 | Noon-1pm | Virtual Event**

### Let's Get to the Heart of the Matter on Mentoring in PBC.

Join local nonprofit and community leaders for this virtual conversation about mentorship and the role COVID-19 has played in increasing the digital divide, especially as it relates to youth in the education system, delinquency system, and other dependency systems.

Panelists will discuss the importance of mentorship among various demographics and share actionable steps to ensure no one in our community is left behind. We will also share a success story about a local mentor/mentee pair to show the power of mentoring and how you can make a greater impact during these difficult times. **Join us on March 17 at 12pm!**
