

# Is Your Passion *KILLING* Your Impact?

*What if choosing to put yourself first was the path  
to create your greatest impact?*

Working in the nonprofit field is far from easy, yet your passion keeps you going, AND it could also be what is making you less effective. Come enjoy this energetic training from Dr. Angela M. Shuttlesworth, of Be.Lead.Grow. as she will be discussing her latest effort to support community leaders just like you. You will learn her Passion Mapping process which will empower you with clarity, and inspired action that could save your life.

## At the End of the Session You Will:

-  Recognize compassion fatigue and know how to overcome it.
-  Have clarity and a clear plan to reduce being overwhelmed.
-  Know how to align your personal mission with your organization's vision.
