

Engagement & Advocacy Pillar

Don't forget, advocacy can be one of the most powerful ways to impact public policy. It also plays a big role in our community's effort to prevent and end homelessness while representing the work we do to accomplish these goals. Your voice matters and collectively we can all make a difference.

If you work in this field, you are well aware of the difficulties our community has and what it could accomplish with more funding or brand-new or improved services. It is our responsibility to let politicians know about these needs. They rely on us to know which topics are important within our neighborhoods. You all play a crucial role in advocacy efforts to gain additional funding to eradicate homelessness because you are in the trenches every day. We need your help to come together as a whole to help our policymakers understand which issues represent a priority in our community. I think we can all agree that homelessness is a priority.

Come join us today and every third Wednesday for our Engagement and Advocacy Pillar meeting at 10:00 am via zoom. Hope to see you there!
