

An Alliance of Committed Individuals Helping Connect People with Health & Human Service Programs in Palm Beach County

## Navigate PBC's

### Connecting the Community to Mental Health Resources

Greetings,

adults in the U.S. experience a mental illness in a given year. Youth (ages 13-18) experience a rate comparable to this. Unfortunately, the data also show that a significant number of those affected are not or are inadequately treated. This happens for many reasons, including: the stigma attached to diagnosed mental illness and receiving treatment for such a condition; the lack of access to supports; and the lack of awareness about the services that exist in the community. With a commitment to a "no wrong-door approach" to behavioral health services, we know that understanding the available resources is critically important in making the right referrals and helping those we serve and our community access the most appropriate systems of care.

Please join us for a valuable information session with **Lindsay Slattery-Cerny, MSW, Regional Suicide Prevention Specialist**, from Florida Linking Individuals Needing Care (FL LINC Project) and the Southeast Florida Behavioral Health Network (SEFBHN). Ms. Slattery-Cerny will present, in an effort to:

- **To enhance knowledge and skills of social service professionals, care coordinators, case managers, and wraparound specialists.**
- **To build a community safety net for those at-risk for suicide and mental health issues.**
- **To know the alliance for resource utilization, partnership building and networking.**

This is a **FREE** workshop.  
Please register as soon as possible as seats are limited.

In addition to learning more about the topic, this is also a great opportunity to network with other professionals in the area, and build cultivate important relationships.

Also, please contact us with any questions.

Feel free to forward this to others that might be interested.

**Wednesday, June 27, 2018**

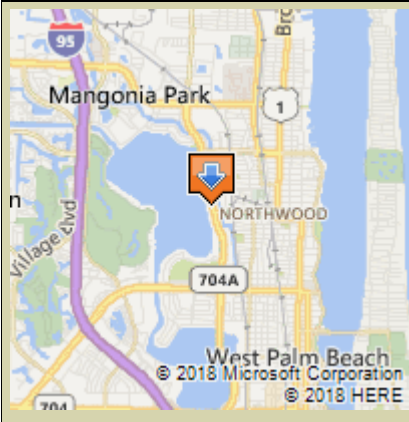

**9:00 am - 10:30 am**

**Breakfast will be provided**
