Description:

How many Great Leaders have you had the opportunity to work with in your life? If you're like most of us, sadly the answer is "not that many." Even though "great" can be in the eye of the beholder, it turns out there are some common attributes and characteristics that differentiate good from great leadership. We will be discussing 4 pillars that define great leadership: demonstrate emotional intelligence; build great teams; develop other great leaders; Produce great results. Come prepared to share stories and discuss attributes, and see how you match up against these characteristics.
