

## **Census Response Rate Update**

I hope you and Family are well on today. I wanted to share that some people have stated that they have not received their invitation in the mail or they lost their invitation and don't have their GEO code, these people can still respond!!

They can still go on-line at **my2020census.gov** on their home computer, the library, use their cell phone to go on-line or they can **call a toll free number and someone will answer their call and ask the questions at 1-844-330-2020.**

If you can, please give all of your contacts this information. **Right now the City of Pahokee response rate is 14.6%, South Bay is 18.5% and Belle Glade is 14.7%.**

We are checking these response rates every 2 or 3 days to see how well people are responding back. If your Church is still meeting at Bible study or Sunday services this could be an opportunity to show people how simple it is to **respond back to Census.**

**Please help us by getting this information out. Thanks for all you're doing in your community!!**
