

“We are now up to 11 companies who have committed to hiring 19 ex-offenders – we need to get to 100 jobs for ex-offenders by the middle of September. Please reach out to your business network and ask companies, big and small, if they are willing to give people coming out of incarceration a second chance.

I’ve attached two things...1) Job form for companies with immediate openings, and 2) commitment letter for companies who would consider hiring in the coming weeks and months.

Both of these forms will go to CareerSource and Palm Beach County’s re-entry division where staff members will look for job applicants for openings now and in the future. If you have a company that has filled out the form or letter, please email it back to me and I’ll forward it on CareerSource and the county.”
