

As we prepare to roll out our [2024 April and June grant portals](#), which will be accessible throughout 04/1-04/30 and 06/1-06/30, we want to note that in order to qualify for funding, partners **must** complete [this survey](#) **prior to** submitting their grant application. [For those who have received funding in prior years, you can expect just about the same questions. Please LMK if you have any questions regarding this process. Thanks all!
