E-Cigarettes & Youth ADDRESSING AN EPIDEMIC

1 in 4 high school students report using an e-cigarette in the past month. Many kids and their parents falsely believe these devices are safe. Join the American Heart Association, Urban League of Palm Beach County Project Ready NULITES students, Tobacco Free Florida Palm Beach County and The Substance Awareness Coalition of Palm Beach County for a community conversation about this epidemic.

February 26| 6-8PM
West Tech Educational Center
2625 NW 16th St, Belle Glade, FL 33430

We'll talk about the dangers of e-cigarettes, how they are marketed to kids, how they can be easily hidden from adults and what we can do about it. Everyone is welcome. Meeting includes dinner, product education, table discussion with teens, and opportunity for Q&A.
