Under Free Stuff, here's a paragraph on free furniture items.

Free household furnishings, including everything from beds to couches, tables, mattresses and appliances, may be provided from several national charity organizations that may be near you. The programs help the homeless get established or can be used by low income families that can't afford to buy stuff for their home or apartment on their own. Vouchers may also be provided for shopping at a thrift store, and locate [free furniture assistance programs](#).
